Dear Parents;

It is finally May. If April showers bring may flowers; what do May flowers bring: PILGRIMS😊
AH!, Spring! It brings out the silly in all of us.
The last project of the year is the castle project. The children will need your guidance to be sure that the project is done with fidelity. They will learn that a castle was built as a defense against an enemy and not as a luxurious home. The finished castle project should reflect the knowledge the students learn about how a real castle was built. They will receive bonus points if they have a working drawbridge. The castle project is due May 26.
